

Panoramic Table of Deep Insight Algorithms (English Version)

Panoramic Table of Deep Insight Algorithms

Dr. Wei Meng

No.	Insight Task / Objective	Algorithm Family (Level 1)	Level-2 Task / Sub-objective	Typical Algorithms / Representative Methods (with common variants)	Key Inputs	Key Outputs (Insight Artifacts)	Evaluation Metrics / Audit Evidence
1	Descriptive Deep Insights (Structure + Distribution + Differences)	Descriptive Statistics & Distribution Modeling	Robust (Variant 1)	Robust summary (Huber/M-estimator) Extensions: ablation, hyperparameter sweep, robustness checks	Data/Logs//Metrics	Robust Statistics, Tail Risk, Distribution Structure	GOF(A/D/KS), Robust(bootstrap), Coverage,
2	Descriptive Deep Insights (Structure + Distribution + Differences)	Descriptive Statistics & Distribution Modeling	Quantiles/Tail Risk (Variant 2)	Quantile & tail metrics (VaR/ES, QQ diagnostics) Extensions: ablation, hyperparameter sweep, robustness checks	Data/Logs//Metrics	Robust Statistics, Tail Risk, Distribution Structure	GOF(A/D/KS), Robust(bootstrap), Coverage,
3	Descriptive Deep Insights (Structure + Distribution + Differences)	Descriptive Statistics & Distribution Modeling	Distribution Fitting Comparison (Variant 3)	L-moments / trimmed moments Extensions: ablation,	Data/Logs//Metrics	Robust Statistics, Tail Risk, Distribution Structure	GOF(A/D/KS), Robust(bootstrap), Coverage,

	Differences)	ing		hyperparameter sweep, robustness checks			
4	Descriptive Deep Insights (Structure + Distribution + Differences)	Descriptive Statistics & Distribution Modeling	Structure (Copula) (Variant 4)	Copula models (Gaussian/Archimedean) Extensions: ablation, hyperparameter sweep, robustness checks	Data/Logs/Metrics	RobustStatistics, Tail Risk, DistributionStructure	GOF(AD/KS), Robust(bootstrap), Coverage,
5	Descriptive Deep Insights (Structure + Distribution + Differences)	Descriptive Statistics & Distribution Modeling	Robust (Variant 5)	Distribution selection (AIC/BIC) + goodness-of-fit (KS/AD) Extensions: ablation, hyperparameter sweep, robustness checks	Data/Logs/Metrics	RobustStatistics, Tail Risk, DistributionStructure	GOF(AD/KS), Robust(bootstrap), Coverage,
6	Descriptive Deep Insights (Structure + Distribution + Differences)	Descriptive Statistics & Distribution Modeling	Robust (Variant 6)	Robust summary (Huber/M-estimator) Extensions: ablation, hyperparameter sweep, robustness checks	Data/Logs/Metrics	RobustStatistics, Tail Risk, DistributionStructure	GOF(AD/KS), Robust(bootstrap), Coverage,
7	Descriptive Deep	Descriptive	Quantiles/Tail Risk	Quantile & tail	Data/Logs/Metrics	RobustStatistics, Tail	GOF(AD/KS),

	Insights (Structure + Distribution + Differences)	Statistics & Distribution Modeling	(Variant 7)	metrics (VaR/ES, QQ diagnostics) Extensions: ablation, hyperparameter sweep, robustness checks		Risk, DistributionStructure	Robust(bootstrap), Coverage,
8	Descriptive Deep Insights (Structure + Distribution + Differences)	Descriptive Statistics & Distribution Modeling	DistributionFittingComparison (Variant 8)	L-moments / trimmed moments Extensions: ablation, hyperparameter sweep, robustness checks	Data/Logs//Metrics	RobustStatistics, Tail Risk, DistributionStructure	GOF(AD/KS), Robust(bootstrap), Coverage,
9	Descriptive Deep Insights (Structure + Distribution + Differences)	Descriptive Statistics & Distribution Modeling	Structure (Copula) (Variant 9)	Copula models (Gaussian/t/Archimedean) Extensions: ablation, hyperparameter sweep, robustness checks	Data/Logs//Metrics	RobustStatistics, Tail Risk, DistributionStructure	GOF(AD/KS), Robust(bootstrap), Coverage,
10	Descriptive Deep Insights (Structure + Distribution + Differences)	Descriptive Statistics & Distribution Modeling	Robust (Variant 10)	Distribution selection (AIC/BIC) + goodness-of-fit (KS/AD) Extensions: ablation, hyperparameter	Data/Logs//Metrics	RobustStatistics, Tail Risk, DistributionStructure	GOF(AD/KS), Robust(bootstrap), Coverage,

				sweep, robustness checks			
11	Descriptive Deep Insights (Structure + Distribution + Differences)	Descriptive Statistics & Distribution Modeling	Robust (Variant 11)	Robust summary (Huber/M-estimator) Extensions: ablation, hyperparameter sweep, robustness checks	Data/Logs//Metrics	RobustStatistics, Tail Risk, DistributionStructure	GOF(AD/KS), Robust(bootstrap), Coverage,
12	Descriptive Deep Insights (Structure + Distribution + Differences)	Descriptive Statistics & Distribution Modeling	Quantiles/Tail Risk (Variant 12)	Quantile & tail metrics (VaR/ES, QQ diagnostics) Extensions: ablation, hyperparameter sweep, robustness checks	Data/Logs//Metrics	RobustStatistics, Tail Risk, DistributionStructure	GOF(AD/KS), Robust(bootstrap), Coverage,
13	Descriptive Deep Insights (Structure + Distribution + Differences)	Descriptive Statistics & Distribution Modeling	DistributionFittingComparison (Variant 13)	L-moments / trimmed moments Extensions: ablation, hyperparameter sweep, robustness checks	Data/Logs//Metrics	RobustStatistics, Tail Risk, DistributionStructure	GOF(AD/KS), Robust(bootstrap), Coverage,
14	Descriptive Deep Insights (Structure + Distribution + Differences)	Descriptive Statistics & Distribution Modeling	Structure (Copula) (Variant 14)	Copula models (Gaussian/t/Archimedean) Extensions: ablation, hyperparameter sweep, robustness checks	Data/Logs//Metrics	RobustStatistics, Tail Risk, DistributionStructure	GOF(AD/KS), Robust(bootstrap), Coverage,

	on + Difference s)	Modeling		s: ablation, hyperparameter sweep, robustness checks			e,
15	Descriptive Deep Insights (Structure + Distribution + Difference s)	Descriptive Statistics & Distribution Modeling	Robust (Variant 15)	Distribution selection (AIC/BIC) + goodness-of-fit (KS/AD) Extensions: ablation, hyperparameter sweep, robustness checks	Data/Logs//Metrics	RobustStatistics, Tail Risk, DistributionStructure	GOF(A D/KS), Robust(bootstrap), Coverage,
16	Group Differences & Statistical Significance Insights	Statistical Testing	(Variant 1)	t-test / Welch t-test + effect size (Cohen's d) Extensions: ablation, hyperparameter sweep, robustness checks	Samples, /Quasi-experimentData	+Effect size+Confidence interval+Interpretable	p/CI, Effect size, FDR, , Robust
17	Group Differences & Statistical Significance Insights	Statistical Testing	Distribution (Variant 2)	Mann–Whitney U / Wilcoxon signed-rank Extensions: ablation, hyperparameter sweep, robustness checks	Samples, /Quasi-experimentData	+Effect size+Confidence interval+Interpretable	p/CI, Effect size, FDR, , Robust

18	Group Differences & Statistical Significance Insights	Statistical Testing	Comparison (Variant 3)	ANOVA / Kruskal-Wallis + post-hoc (Tukey/Dunn) Extensions: ablation, hyperparameter sweep, robustness checks	Samples, /Quasi-experimentData	+Effect size+Confidence interval+Interpretable	p/CI, Effect size, FDR, , Robust
19	Group Differences & Statistical Significance Insights	Statistical Testing	/(Variant 4)	Permutation test + bootstrap CI Extensions: ablation, hyperparameter sweep, robustness checks	Samples, /Quasi-experimentData	+Effect size+Confidence interval+Interpretable	p/CI, Effect size, FDR, , Robust
20	Group Differences & Statistical Significance Insights	Statistical Testing	Comparison (Variant 5)	Multiple testing control (BH-FDR/Bonferroni) Extensions: ablation, hyperparameter sweep, robustness checks	Samples, /Quasi-experimentData	+Effect size+Confidence interval+Interpretable	p/CI, Effect size, FDR, , Robust
21	Group Differences & Statistical Significance Insights	Statistical Testing	(Variant 6)	t-test / Welch t-test + effect size (Cohen's d) Extensions: ablation, hyperparameter	Samples, /Quasi-experimentData	+Effect size+Confidence interval+Interpretable	p/CI, Effect size, FDR, , Robust

				sweep, robustness checks			
2 2	Group Differences & Statistical Significance Insights	Statistical Testing	Distribution (Variant 7)	Mann–Whitney U / Wilcoxon signed-rank Extensions: ablation, hyperparameter sweep, robustness checks	Samples, /Quasi-experimentData	+Effect size+Confidence interval+Interpretable	p/CI, Effect size, FDR, , Robust
2 3	Group Differences & Statistical Significance Insights	Statistical Testing	Comparison (Variant 8)	ANOVA / Kruskal–Wallis + post-hoc (Tukey/Dunn) Extensions: ablation, hyperparameter sweep, robustness checks	Samples, /Quasi-experimentData	+Effect size+Confidence interval+Interpretable	p/CI, Effect size, FDR, , Robust
2 4	Group Differences & Statistical Significance Insights	Statistical Testing	/ (Variant 9)	Permutation test + bootstrap CI Extensions: ablation, hyperparameter sweep, robustness checks	Samples, /Quasi-experimentData	+Effect size+Confidence interval+Interpretable	p/CI, Effect size, FDR, , Robust
2 5	Group Differences & Statistical Significance Insights	Statistical Testing	Comparison (Variant 10)	Multiple testing control (BH-FDR/Bonferroni) Extension	Samples, /Quasi-experimentData	+Effect size+Confidence interval+Interpretable	p/CI, Effect size, FDR, , Robust

				s: ablation, hyperparameter sweep, robustness checks			
2 6	Group Differences & Statistical Significance Insights	Statistical Testing	(Variant 11)	t-test / Welch t- test + effect size (Cohen's d) Extension s: ablation, hyperparameter sweep, robustness checks	Samples, /Quasi- experimentData	+Effect size+Confidence interval+Interpretable	p/CI, Effect size, FDR, , Robust
2 7	Group Differences & Statistical Significance Insights	Statistical Testing	Distribution (Variant 12)	Mann– Whitney U / Wilcoxon signed- rank Extension s: ablation, hyperparameter sweep, robustness checks	Samples, /Quasi- experimentData	+Effect size+Confidence interval+Interpretable	p/CI, Effect size, FDR, , Robust
2 8	Group Differences & Statistical Significance Insights	Statistical Testing	Comparison (Variant 13)	ANOVA / Kruskal– Wallis + post-hoc (Tukey/Dunn) Extension s: ablation, hyperparameter sweep, robustness checks	Samples, /Quasi- experimentData	+Effect size+Confidence interval+Interpretable	p/CI, Effect size, FDR, , Robust
2	Group	Statistical	/ (Variant	Permutati	Samples, /Quasi-	+Effect	p/CI,

9	Differences & Statistical Significance Insights	ical Testing	14)	on test + bootstrap CI Extensions: ablation, hyperparameter sweep, robustness checks	experimentData	size+Confidence interval+Interpretable	Effect size, FDR, , Robust
30	Group Differences & Statistical Significance Insights	Statistical Testing	Comparison (Variant 15)	Multiple testing control (BH-FDR/Bonferroni) Extensions: ablation, hyperparameter sweep, robustness checks	Samples, /Quasi-experimentData	+Effect size+Confidence interval+Interpretable	p/CI, Effect size, FDR, , Robust
31	Multivariate Association Structure Insights	Dependence Structure Learning	(Variant 1)	Partial correlation network Extensions: ablation, hyperparameter sweep, robustness checks	()	Network, , StructureInterpretation	Stability, , Edge confidence,
32	Multivariate Association Structure Insights	Dependence Structure Learning	(Variant 2)	Graphical Lasso / sparse inverse covariance Extensions: ablation, hyperparameter sweep, robustness checks	()	Network, , StructureInterpretation	Stability, , Edge confidence,

33	Multivariate Association Structure Insights	Dependence Structure Learning	Network (Variant 3)	Distance correlation / MIC Extensions: ablation, hyperparameter sweep, robustness checks	()	Network, , Structure Interpretation	Stability, , Edge confidence,
34	Multivariate Association Structure Insights	Dependence Structure Learning	(Variant 4)	HSIC (kernel dependence) Extensions: ablation, hyperparameter sweep, robustness checks	()	Network, , Structure Interpretation	Stability, , Edge confidence,
35	Multivariate Association Structure Insights	Dependence Structure Learning	Structure (Variant 5)	Stability selection + bootstrap graph Extensions: ablation, hyperparameter sweep, robustness checks	()	Network, , Structure Interpretation	Stability, , Edge confidence,
36	Multivariate Association Structure Insights	Dependence Structure Learning	(Variant 6)	Partial correlation network Extensions: ablation, hyperparameter sweep, robustness checks	()	Network, , Structure Interpretation	Stability, , Edge confidence,
37	Multivariate	Dependence	(Variant 7)	Graphical Lasso /	()	Network, , Structure Interpretation	Stability, , Edge

	Association Structure Insights	Structure Learning		sparse inverse covariance Extensions: ablation, hyperparameter sweep, robustness checks		interpretation	confidence,
38	Multivariate Association Structure Insights	Dependence Structure Learning	Network (Variant 8)	Distance correlation / MIC Extensions: ablation, hyperparameter sweep, robustness checks	()	Network, , Structure Interpretation	Stability, , Edge confidence,
39	Multivariate Association Structure Insights	Dependence Structure Learning	(Variant 9)	HSIC (kernel dependence) Extensions: ablation, hyperparameter sweep, robustness checks	()	Network, , Structure Interpretation	Stability, , Edge confidence,
40	Multivariate Association Structure Insights	Dependence Structure Learning	Structure (Variant 10)	Stability selection + bootstrap graph Extensions: ablation, hyperparameter sweep, robustness checks	()	Network, , Structure Interpretation	Stability, , Edge confidence,
41	Multivariate	Dependence	(Variant 11)	Partial correlation	()	Network, , Structure Interpretation	Stability, , Edge

	Association Structure Insights	Structure Learning		n network Extensions: ablation, hyperparameter sweep, robustness checks		erpretation	confidencce,
42	Multivariate Association Structure Insights	Dependence Structure Learning	(Variant 12)	Graphical Lasso / sparse inverse covariance Extensions: ablation, hyperparameter sweep, robustness checks	()	Network, , Structure Interpretation	Stability, , Edge confidencce,
43	Multivariate Association Structure Insights	Dependence Structure Learning	Network (Variant 13)	Distance correlation / MIC Extensions: ablation, hyperparameter sweep, robustness checks	()	Network, , Structure Interpretation	Stability, , Edge confidencce,
44	Multivariate Association Structure Insights	Dependence Structure Learning	(Variant 14)	HSIC (kernel dependence) Extensions: ablation, hyperparameter sweep, robustness checks	()	Network, , Structure Interpretation	Stability, , Edge confidencce,
45	Multivariate Association	Dependence Struct	Structure (Variant 15)	Stability selection +	()	Network, , Structure Interpretation	Stability, , Edge confiden

	n Structure Insights	ure Learn ing		bootstrap graph Extension s: ablation, hyperpara meter sweep, robustness checks			ce,
4 6	Dimensio nality Reduction & Principal- Structure Insights	Dime nsiona lity Reduc tion / Manif old Learn ing	Structure (Variant 1)	PCA + loadings interpret ation Extension s: ablation, hyperpara meter sweep, robustness checks	/Outputs	Structure, Interpretati on, Visualizati on	, , Stability, Interpret able
4 7	Dimensio nality Reduction & Principal- Structure Insights	Dime nsiona lity Reduc tion / Manif old Learn ing	(Variant 2)	ICA (FastICA) Extension s: ablation, hyperpara meter sweep, robustness checks	/Outputs	Structure, Interpretati on, Visualizati on	, , Stability, Interpret able
4 8	Dimensio nality Reduction & Principal- Structure Insights	Dime nsiona lity Reduc tion / Manif old Learn ing	Interpretab le (Variant 3)	NMF + topic-like factors Extension s: ablation, hyperpara meter sweep, robustness checks	/Outputs	Structure, Interpretati on, Visualizati on	, , Stability, Interpret able
4 9	Dimensio nality Reduction & Principal- Structure	Dime nsiona lity Reduc tion / Manif	(Variant 4)	UMAP / t- SNE Extension s: ablation, hyperpara	/Outputs	Structure, Interpretati on, Visualizati on	, , Stability, Interpret able

	Insights	old Learning		meter sweep, robustness checks			
50	Dimensionality Reduction & Principal-Structure Insights	Dimensionality Reduction / Manifold Learning	Visualization Structure (Variant 5)	Diffusion Maps / PHATE Extensions: ablation, hyperparameter sweep, robustness checks	/Outputs	Structure, Interpretation, Visualization	, , Stability, Interpretable
51	Dimensionality Reduction & Principal-Structure Insights	Dimensionality Reduction / Manifold Learning	Structure (Variant 6)	PCA + loadings interpretation Extensions: ablation, hyperparameter sweep, robustness checks	/Outputs	Structure, Interpretation, Visualization	, , Stability, Interpretable
52	Dimensionality Reduction & Principal-Structure Insights	Dimensionality Reduction / Manifold Learning	(Variant 7)	ICA (FastICA) Extensions: ablation, hyperparameter sweep, robustness checks	/Outputs	Structure, Interpretation, Visualization	, , Stability, Interpretable
53	Dimensionality Reduction & Principal-Structure Insights	Dimensionality Reduction / Manifold Learning	Interpretable (Variant 8)	NMF + topic-like factors Extensions: ablation, hyperparameter sweep, robustness checks	/Outputs	Structure, Interpretation, Visualization	, , Stability, Interpretable
5	Dimensionality Reduction & Principal-Structure Insights	Dimensionality Reduction / Manifold Learning	(Variant 9)	UMAP / t-SNE	/Outputs	Structure, Interpretation, Visualization	, , Stability, Interpretable

4	nality Reduction & Principal-Structure Insights	nsionality Reduction / Manifold Learning	9)	SNE Extensions: ablation, hyperparameter sweep, robustness checks		Interpretation, Visualization	Stability, Interpretable
55	Dimensionality Reduction & Principal-Structure Insights	Dimensionality Reduction / Manifold Learning	VisualizationStructure (Variant 10)	Diffusion Maps / PHATE Extensions: ablation, hyperparameter sweep, robustness checks	/Outputs	Structure, Interpretation, Visualization	, , Stability, Interpretable
56	Dimensionality Reduction & Principal-Structure Insights	Dimensionality Reduction / Manifold Learning	Structure (Variant 11)	PCA + loadings interpretation Extensions: ablation, hyperparameter sweep, robustness checks	/Outputs	Structure, Interpretation, Visualization	, , Stability, Interpretable
57	Dimensionality Reduction & Principal-Structure Insights	Dimensionality Reduction / Manifold Learning	(Variant 12)	ICA (FastICA) Extensions: ablation, hyperparameter sweep, robustness checks	/Outputs	Structure, Interpretation, Visualization	, , Stability, Interpretable
58	Dimensionality Reduction & Principal-Structure Insights	Dimensionality Reduction / Manifold	Interpretable (Variant 13)	NMF + topic-like factors Extensions: ablation, hyperpara	/Outputs	Structure, Interpretation, Visualization	, , Stability, Interpretable

		Learning		meter sweep, robustness checks			
59	Dimensionality Reduction & Principal-Structure Insights	Dimensionality Reduction / Manifold Learning	(Variant 14)	UMAP / t-SNE Extensions: ablation, hyperparameter sweep, robustness checks	/Outputs	Structure, Interpretation, Visualization	, , Stability, Interpretable
60	Dimensionality Reduction & Principal-Structure Insights	Dimensionality Reduction / Manifold Learning	Visualization Structure (Variant 15)	Diffusion Maps / PHATE Extensions: ablation, hyperparameter sweep, robustness checks	/Outputs	Structure, Interpretation, Visualization	, , Stability, Interpretable
61	Clustering Insights (Group Profiling)	Clustering	Clustering (Variant 1)	k-means / k-medoids Extensions: ablation, hyperparameter sweep, robustness checks	//	, , Anomalies	Silhouette/DBI, Stability, Interpretable, Inter-annotator agreement
62	Clustering Insights (Group Profiling)	Clustering	Clustering (Variant 2)	HDBSCAN / DBSCAN Extensions: ablation, hyperparameter sweep, robustness checks	//	, , Anomalies	Silhouette/DBI, Stability, Interpretable, Inter-annotator agreement
63	Clustering Insights	Clustering	Clustering (Variant 3)	Hierarchical	//	, , Anomalies	Silhouette/DBI,

	(Group Profiling)		3)	clustering (Ward/complete) Extensions: ablation, hyperparameter sweep, robustness checks			Stability, Interpretable, Inter-annotator agreement
64	Clustering Insights (Group Profiling)	Clustering	ModelClustering (Variant 4)	Gaussian Mixture Models Extensions: ablation, hyperparameter sweep, robustness checks	//	, , Anomalies	Silhouette/DBI, Stability, Interpretable, Inter-annotator agreement
65	Clustering Insights (Group Profiling)	Clustering	Clustering Interpretation (Variant 5)	Prototype explanation + cluster labeling rules Extensions: ablation, hyperparameter sweep, robustness checks	//	, , Anomalies	Silhouette/DBI, Stability, Interpretable, Inter-annotator agreement
66	Clustering Insights (Group Profiling)	Clustering	Clustering (Variant 6)	k-means / k-medoids Extensions: ablation, hyperparameter sweep, robustness checks	//	, , Anomalies	Silhouette/DBI, Stability, Interpretable, Inter-annotator agreement
67	Clustering Insights (Group Profiling)	Clustering	Clustering (Variant 7)	HDBSCAN / DBSCAN	//	, , Anomalies	Silhouette/DBI, Stability, Interpretable

				Extensions: ablation, hyperparameter sweep, robustness checks			able, Inter- annotato r agreeme nt
6 8	Clustering Insights (Group Profiling)	Cluste ring	Clustering (Variant 8)	Hierarchic al clustering (Ward/co mplete) Extension s: ablation, hyperpara meter sweep, robustness checks	//	,, Anomalies	Silhouett e/DBI, Stability, Interpret able, Inter- annotato r agreeme nt
6 9	Clustering Insights (Group Profiling)	Cluste ring	ModelClu stering (Variant 9)	Gaussian Mixture Models Extension s: ablation, hyperpara meter sweep, robustness checks	//	,, Anomalies	Silhouett e/DBI, Stability, Interpret able, Inter- annotato r agreeme nt
7 0	Clustering Insights (Group Profiling)	Cluste ring	Clustering Interpretat ion (Variant 10)	Prototype explanatio n + cluster labeling rules Extension s: ablation, hyperpara meter sweep, robustness checks	//	,, Anomalies	Silhouett e/DBI, Stability, Interpret able, Inter- annotato r agreeme nt
7 1	Clustering Insights (Group Profiling)	Cluste ring	Clustering (Variant 11)	k-means / k-medoids Extension s:	//	,, Anomalies	Silhouett e/DBI, Stability, Interpret able,

				ablation, hyperparameter sweep, robustness checks			Inter-annotator agreement
72	Clustering Insights (Group Profiling)	Clustering	Clustering (Variant 12)	HDBSCAN / DBSCAN Extensions: ablation, hyperparameter sweep, robustness checks	//	, , Anomalies	Silhouette/DBI, Stability, Interpretable, Inter-annotator agreement
73	Clustering Insights (Group Profiling)	Clustering	Clustering (Variant 13)	Hierarchical clustering (Ward/complete) Extensions: ablation, hyperparameter sweep, robustness checks	//	, , Anomalies	Silhouette/DBI, Stability, Interpretable, Inter-annotator agreement
74	Clustering Insights (Group Profiling)	Clustering	ModelClustering (Variant 14)	Gaussian Mixture Models Extensions: ablation, hyperparameter sweep, robustness checks	//	, , Anomalies	Silhouette/DBI, Stability, Interpretable, Inter-annotator agreement
75	Clustering Insights (Group Profiling)	Clustering	Clustering Interpretation (Variant 15)	Prototype explanation + cluster labeling rules Extensions: ablation,	//	, , Anomalies	Silhouette/DBI, Stability, Interpretable, Inter-annotator

				hyperparameter sweep, robustness checks			agreement
76	Topic Insights (Deep Text Semantics)	Topic Modeling	Topics (Variant 1)	LDA (collapsed Gibbs / variational) Extensions: ablation, hyperparameter sweep, robustness checks	(Paragraph/)+Data (/)	TopicsDistribution, Topics, Topics,	Topic coherence(C_v), TopicsStability, Inter-annotator agreement, Reproducibility
77	Topic Insights (Deep Text Semantics)	Topic Modeling	Topics (Variant 2)	HDP (nonparametric) Extensions: ablation, hyperparameter sweep, robustness checks	(Paragraph/)+Data (/)	TopicsDistribution, Topics, Topics,	Topic coherence(C_v), TopicsStability, Inter-annotator agreement, Reproducibility
78	Topic Insights (Deep Text Semantics)	Topic Modeling	Topics (Variant 3)	CTM / STM (correlated / covariates) Extensions: ablation, hyperparameter sweep, robustness checks	(Paragraph/)+Data (/)	TopicsDistribution, Topics, Topics,	Topic coherence(C_v), TopicsStability, Inter-annotator agreement, Reproducibility
79	Topic Insights (Deep Text Semantics)	Topic Modeling	Topics (Variant 4)	Dynamic Topic Model (DTM) Extensions:	(Paragraph/)+Data (/)	TopicsDistribution, Topics, Topics,	Topic coherence(C_v), TopicsStability, Inter-

				ablation, hyperparameter sweep, robustness checks			annotator agreement, Reproducibility
80	Topic Insights (Deep Text Semantics)	Topic Modeling	TopicsInterpretableAudit (Variant 5)	BERTopic (embedding + c-TF-IDF) Extensions: ablation, hyperparameter sweep, robustness checks	(Paragraph/)+Data (/)	TopicsDistribution, Topics, Topics,	Topic coherence(C_v), TopicsStability, Inter-annotator agreement, Reproducibility
81	Topic Insights (Deep Text Semantics)	Topic Modeling	Topics (Variant 6)	LDA (collapsed Gibbs / variational) Extensions: ablation, hyperparameter sweep, robustness checks	(Paragraph/)+Data (/)	TopicsDistribution, Topics, Topics,	Topic coherence(C_v), TopicsStability, Inter-annotator agreement, Reproducibility
82	Topic Insights (Deep Text Semantics)	Topic Modeling	Topics (Variant 7)	HDP (nonparametric) Extensions: ablation, hyperparameter sweep, robustness checks	(Paragraph/)+Data (/)	TopicsDistribution, Topics, Topics,	Topic coherence(C_v), TopicsStability, Inter-annotator agreement, Reproducibility
83	Topic Insights (Deep Text Semantics)	Topic Modeling	Topics (Variant 8)	CTM / STM (correlated / covariates) Extension	(Paragraph/)+Data (/)	TopicsDistribution, Topics, Topics,	Topic coherence(C_v), TopicsStability, Inter-annotator

				s: ablation, hyperparameter sweep, robustness checks			r agreeme nt, Reprodu cibility
8 4	Topic Insights (Deep Text Semantics)	Topic Model ing	Topics (Variant 9)	Dynamic Topic Model (DTM) Extension s: ablation, hyperpara meter sweep, robustness checks	(Paragraph/)+Data (/)	TopicsDistr ibution, Topics, Topics,	Topic coherenc e(C_v), TopicsSt ability, Inter- annotato r agreeme nt, Reprodu cibility
8 5	Topic Insights (Deep Text Semantics)	Topic Model ing	TopicsInte rpretableA udit (Variant 10)	BERTopic (embeddin g + c-TF- IDF) Extension s: ablation, hyperpara meter sweep, robustness checks	(Paragraph/)+Data (/)	TopicsDistr ibution, Topics, Topics,	Topic coherenc e(C_v), TopicsSt ability, Inter- annotato r agreeme nt, Reprodu cibility
8 6	Topic Insights (Deep Text Semantics)	Topic Model ing	Topics (Variant 11)	LDA (collapsed Gibbs / variational) Extension s: ablation, hyperpara meter sweep, robustness checks	(Paragraph/)+Data (/)	TopicsDistr ibution, Topics, Topics,	Topic coherenc e(C_v), TopicsSt ability, Inter- annotato r agreeme nt, Reprodu cibility
8 7	Topic Insights (Deep Text Semantics)	Topic Model ing	Topics (Variant 12)	HDP (nonpara metric) Extension s: ablation,	(Paragraph/)+Data (/)	TopicsDistr ibution, Topics, Topics,	Topic coherenc e(C_v), TopicsSt ability, Inter-

				hyperparameter sweep, robustness checks			annotator agreement, Reproducibility
88	Topic Insights (Deep Text Semantics)	Topic Modeling	Topics (Variant 13)	CTM / STM (correlated / covariates) Extensions: ablation, hyperparameter sweep, robustness checks	(Paragraph/)+Data (/)	TopicsDistribution, Topics, Topics,	Topic coherence(C_v), TopicsStability, Inter-annotator agreement, Reproducibility
89	Topic Insights (Deep Text Semantics)	Topic Modeling	Topics (Variant 14)	Dynamic Topic Model (DTM) Extensions: ablation, hyperparameter sweep, robustness checks	(Paragraph/)+Data (/)	TopicsDistribution, Topics, Topics,	Topic coherence(C_v), TopicsStability, Inter-annotator agreement, Reproducibility
90	Topic Insights (Deep Text Semantics)	Topic Modeling	TopicsInterpretableAudit (Variant 15)	BERTopic (embedding + c-TF-IDF) Extensions: ablation, hyperparameter sweep, robustness checks	(Paragraph/)+Data (/)	TopicsDistribution, Topics, Topics,	Topic coherence(C_v), TopicsStability, Inter-annotator agreement, Reproducibility
91	Discourse / Narrative-Structure Insights	Argumentation / Rhetorical Model	Claims (Variant 1)	Argument mining (claim/premise) Extensions:	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradiction points, Narrative	Structure Consistency, Consistency(κ), Evidence

		ing		ablation, hyperparameter sweep, robustness checks			Coverage,
92	Discourse / Narrative-Structure Insights	Argumentation / Rhetorical Modeling	Evidence Alignment (Variant 2)	Claim-evidence linking + retrieval Extensions: ablation, hyperparameter sweep, robustness checks	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradiction points, Narrative	Structure Consistency, Consistency(κ), Evidence Coverage,
93	Discourse / Narrative-Structure Insights	Argumentation / Rhetorical Modeling	Relations (Variant 3)	RST / discourse parsing Extensions: ablation, hyperparameter sweep, robustness checks	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradiction points, Narrative	Structure Consistency, Consistency(κ), Evidence Coverage,
94	Discourse / Narrative-Structure Insights	Argumentation / Rhetorical Modeling	Discourse Structure (Variant 4)	NLI-based support/contradiction graph Extensions: ablation, hyperparameter sweep, robustness checks	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradiction points, Narrative	Structure Consistency, Consistency(κ), Evidence Coverage,
95	Discourse / Narrative-Structure Insights	Argumentation / Rhetorical Modeling	Narrative (Variant 5)	Rhetorical device & framing detection Extensions: ablation, hyperparameter	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradiction points, Narrative	Structure Consistency, Consistency(κ), Evidence Coverage,

				sweep, robustness checks			
96	Discourse / Narrative-Structure Insights	Argumentation / Rhetorical Modeling	Claims (Variant 6)	Argument mining (claim/premise) Extensions: ablation, hyperparameter sweep, robustness checks	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradiction points, Narrative	Structure Consistency, Consistency(κ), Evidence Coverage,
97	Discourse / Narrative-Structure Insights	Argumentation / Rhetorical Modeling	Evidence Alignment (Variant 7)	Claim-evidence linking + retrieval Extensions: ablation, hyperparameter sweep, robustness checks	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradiction points, Narrative	Structure Consistency, Consistency(κ), Evidence Coverage,
98	Discourse / Narrative-Structure Insights	Argumentation / Rhetorical Modeling	Relations (Variant 8)	RST / discourse parsing Extensions: ablation, hyperparameter sweep, robustness checks	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradiction points, Narrative	Structure Consistency, Consistency(κ), Evidence Coverage,
99	Discourse / Narrative-Structure Insights	Argumentation / Rhetorical Modeling	Discourse Structure (Variant 9)	NLI-based support/contradiction graph Extensions: ablation, hyperparameter sweep, robustness checks	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradiction points, Narrative	Structure Consistency, Consistency(κ), Evidence Coverage,

100	Discourse / Narrative-Structure Insights	Argumentation / Rhetorical Modeling	Narrative (Variant 10)	Rhetorical device & framing detection Extensions: ablation, hyperparameter sweep, robustness checks	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradiction points, Narrative	Structure Consistency, Consistency(κ), Evidence Coverage,
101	Discourse / Narrative-Structure Insights	Argumentation / Rhetorical Modeling	Claims (Variant 11)	Argument mining (claim/premise) Extensions: ablation, hyperparameter sweep, robustness checks	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradiction points, Narrative	Structure Consistency, Consistency(κ), Evidence Coverage,
102	Discourse / Narrative-Structure Insights	Argumentation / Rhetorical Modeling	Evidence Alignment (Variant 12)	Claim-evidence linking + retrieval Extensions: ablation, hyperparameter sweep, robustness checks	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradiction points, Narrative	Structure Consistency, Consistency(κ), Evidence Coverage,
103	Discourse / Narrative-Structure Insights	Argumentation / Rhetorical Modeling	Relations (Variant 13)	RST / discourse parsing Extensions: ablation, hyperparameter sweep, robustness checks	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradiction points, Narrative	Structure Consistency, Consistency(κ), Evidence Coverage,
104	Discourse / Narrative-	Argumentation /	Discourse Structure (Variant	NLI-based support/contradictio	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradicti	Structure Consistency,

	Structure Insights	Rhetorical Modeling	14)	n graph Extension s: ablation, hyperparameter sweep, robustness checks		on points, Narrative	Consistency(κ), Evidence Coverage,
105	Discourse / Narrative-Structure Insights	Argumentation / Rhetorical Modeling	Narrative (Variant 15)	Rhetorical device & framing detection Extension s: ablation, hyperparameter sweep, robustness checks	Text+ParagraphStructure+Citations/Links	Graph, Evidence, Contradiction points, Narrative	Structure Consistency, Consistency(κ), Evidence Coverage,
106	Event Extraction & Timeline Insights	Information Extraction	(Variant 1)	NER (BiLSTM-CRF / Transformer) Extension s: ablation, hyperparameter sweep, robustness checks	Text/OSINT	Graph, , CausalEvidenceTraceability	P/R/F1, Consistency, Evidence Alignment,
107	Event Extraction & Timeline Insights	Information Extraction	Relations (Variant 2)	Relation extraction (span/prompt) Extension s: ablation, hyperparameter sweep, robustness checks	Text/OSINT	Graph, , CausalEvidenceTraceability	P/R/F1, Consistency, Evidence Alignment,
108	Event Extraction & Timeline	Information Extrac	(Variant 3)	Event extraction (trigger+argument)	Text/OSINT	Graph, , CausalEvidenceTraceability	P/R/F1, Consistency, Evidence

486	ModelInsights (+Divergence)		(Variant 6)	Stacking / blending Extensions: ablation, hyperparameter sweep, robustness checks	ModelOutputs+Evidence	, Divergence, Robust	Consistency, DivergenceEvidence, Robust, Audit
487	ModelInsights (+Divergence)		Model (Variant 7)	Bayesian model averaging (BMA) Extensions: ablation, hyperparameter sweep, robustness checks	ModelOutputs+Evidence	, Divergence, Robust	Consistency, DivergenceEvidence, Robust, Audit
488	ModelInsights (+Divergence)		(Variant 8)	Triangulation across methods Extensions: ablation, hyperparameter sweep, robustness	ModelOutputs+Evidence	, Divergence, Robust	Consistency, DivergenceEvidence, Robust, Audit

				checks			
489	ModelInsights (+Divergence)		Divergence Interpretation (Variant 9)	Disagreement analysis + error clustering Extensions: ablation, hyperparameter sweep, robustness checks	ModelOutputs+Evidence	, Divergence, Robust	Consistency, Divergence Evidence, Robust, Audit
490	ModelInsights (+Divergence)		Audit (Variant 10)	Selective reporting audit protocols Extensions: ablation, hyperparameter sweep, robustness checks	ModelOutputs+Evidence	, Divergence, Robust	Consistency, Divergence Evidence, Robust, Audit
491	ModelInsights (+Divergence)		(Variant 11)	Stacking / blending Extensions: ablation, hyperparameter sweep, robustness checks	ModelOutputs+Evidence	, Divergence, Robust	Consistency, Divergence Evidence, Robust, Audit
492	ModelInsights (+Divergence)		Model (Variant 12)	Bayesian model averaging (BMA) Extensions: ablation, hyperparameter sweep, robustness checks	ModelOutputs+Evidence	, Divergence, Robust	Consistency, Divergence Evidence, Robust, Audit
4	ModelInsights		(Variant	Triangulat	ModelOutputs+Ev	,	Consiste

93	ghts (+Divergence)		13)	ion across methods Extension s: ablation, hyperparameter sweep, robustness checks	idence	Divergence , Robust	ncy, DivergenceEviden ce, Robust, Audit
494	ModelInsights (+Divergence)		DivergenceInterpretation (Variant 14)	Disagreement analysis + error clustering Extension s: ablation, hyperparameter sweep, robustness checks	ModelOutputs+Evidence	, Divergence , Robust	Consistency, DivergenceEviden ce, Robust, Audit
495	ModelInsights (+Divergence)		Audit (Variant 15)	Selective reporting audit protocols Extension s: ablation, hyperparameter sweep, robustness checks	ModelOutputs+Evidence	, Divergence , Robust	Consistency, DivergenceEviden ce, Robust, Audit
496	Insights (Insights)		Metrics (Variant 1)	MCDA (AHP/TOPSIS/VIKOR) Extension s: ablation, hyperparameter sweep, robustness checks	//Constraints+InsightsOutputs	, , Metrics	, Interpret able, Evaluati on,
49	Insights (Insights)		Risk (Variant	Utility/value	//Constraints+InsightsOutputs	, , Metrics	, Interpret

7			2)	function modeling Extensions: ablation, hyperparameter sweep, robustness checks			able, Evaluation,
498	Insights (Insights)		Thresholds (Variant 3)	Threshold policy learning Extensions: ablation, hyperparameter sweep, robustness checks	//Constraints+InsightsOutputs	, , Metrics	, Interpretable, Evaluation,
499	Insights (Insights)		(Variant 4)	Cost-sensitive decisioning Extensions: ablation, hyperparameter sweep, robustness checks	//Constraints+InsightsOutputs	, , Metrics	, Interpretable, Evaluation,
500	Insights (Insights)		Evaluation (Variant 5)	Post-decision evaluation (uplift/ROI) Extensions: ablation, hyperparameter sweep, robustness checks	//Constraints+InsightsOutputs	, , Metrics	, Interpretable, Evaluation,
